

Exam Marking Package

From providing our practice exam through to the assessment of each of your students' exam pieces, we can provide an excellent exam marking service for you and your school. Let us use our experience in assessment to help provide you and your Year Twelve cohort with an external view of achievement. Students will receive a mark against the expected qualities (0-10) and their teachers will receive a spreadsheet of results, suggested rankings and a report based on overall cohort performance.

Key aspects:

- Experienced VCAA assessors.
- Can help legitimise the trial exam experience for students.
- Acts as a guide for student performance whilst there's still time to improve.
- Takes some of the load during this stressful time for Year Twelve teachers.

Exam marking costing and package.

- All pieces marked thoroughly and scored out of 10. Inclusion of explanations for students who may be on the cusp of reaching the grade above.
- An individual feedback sheet, formatted in a 0-10 ladder, with highlighted feedback and annotations explaining the mark and slowing students to see what's needed to reach the next grade.
- A report on the performance of the cohort, written for students and teachers to use as general feedback.
- \$22 per student. (plus GST)

Please note that the majority of the marking will be completed by Ben Taylor, owner and director of THE ENGLISH LAB, however certain sections can be marked by other team members, all of whom are experienced in teaching and assessing Year Twelve English and the VCAA exams.
